

Specification

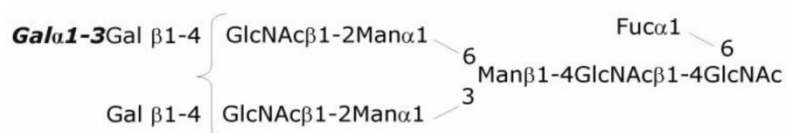

Description: Asialo diantennary plus 1 $\alpha 1 \rightarrow 3$ Gal plus proximal $\alpha 1 \rightarrow 6$ Fucose

Catalogue No: EU10195

Supplier: www.europa-bioproducts.com

Molecular Weight: 1948.70 Da

Structure:

Formulation: The sample is provided dried after speed vac concentration (after resuspension in ultrapure water may contain traces of residual salts).

Purity HPAEC-PAD >90%. As assessed by High pH Anion Exchange Chromatography with Pulsed Amperometric Detection.

Purity MALDI Upon MALDI-TOF MS analysis of the desialylated compound, a trace amount of a mass -146 DA (- Fuc) is detected.

Storage: Shipped on blue ice. Upon arrival store at -20 °C.

Stability: After resuspension in ultrapure water, the sample is stable for a year at -10 °C.
